Subject:	Re: Information Request regarding Security, Access Control and Video Surveillance Scope of Work for FERC
Date:	Thursday, June 09, 2016 12:25:46 PM

Jeremy,
I will get back to you tomorrow on this.

Thanks

Good Morning Danny,

As you're already aware, FERC has bid out a Scope of Work to install access control readers on the Fire Exit Stairwell Doors in 888 First Street NE and the to install access control and video surveillance at 999 North Capitol and K Streets NE. This is Scope of Work has been bid out as separate requirement outside the FERC Building Modernization Scope of Work through the FERC Acquisitions Services Division. Furthermore, this scope of work was offered to the UCP Property Manager which deferred the requirement back to FERC. The question I have regarding this Scope of Work is as follows:

Does GSA need to be involved in this Scope of Work? If so, what is the level of involvement?

I have attached the Scope of Work here for review.

Please respond at your earliest convenience.

Thanks.
